**Re: Applications for the Transfer of Control of Licenses and Authorizations  
from AT&T Wireless Services, Inc. to Cingular Wireless Corporation (WT  
Docket No. 04-70)**

Attached for inclusion in the record is information regarding the retail plans of various wireless telecommunications carriers.

The information was obtained by examining the retail price plans offered to the general public on the websites of six carriers -- AT&T Wireless, Cingular, Nextel, Sprint, T-Mobile, and Verizon Wireless -- during the period May 15, 2004, through June 15, 2004. It includes data on plan prices and features for service offered in cities in 197 of the largest 200 Cellular Market Areas (CMAs) (it does not include information for three CMAs outside the continental United States). The attached spreadsheet lists for each plan: the monthly price (in dollars) of the plan; the number of peak minutes included in the plan; the number of off-peak minutes included in the plan; the number of mobile-to-mobile minutes included in the plan; the per-minute charge (in cents) for additional minutes; the per-minute charge (in cents) for roaming (including any charge for long-distance calling); the charge (if any) for long-distance calling from the plan's "home" area; the monthly charge (in dollars) for adding an additional line; a region number for the CMA (ordered by geography and shown on the second page of the spreadsheet), the carrier, and the number of the CMA.
